

A Relaxed Symmetry-Constrained Non-negative Model for Large-Scale Undirected Weighted Network Representation: Supplementary File

Yurong Zhong, Xin Luo, *Senior Member, IEEE*, and Zidong Wang, *Fellow, IEEE*

This is the supplementary file for the paper entitled *A Relaxed Symmetry-Constrained Non-negative Model for Large-Scale Undirected Weighted Network Representation*. Some supplementary tables and figures illustrating the experimental results are put in this file and cited in the manuscript.
